Council Memo

The board will submit their memo for the March 20th meeting. Prior to the meeting, they will do a merchant outreach informing businesses of the proposed recommendations in the parking lots. Staff will prepare the outreach handout for the board to review by March 12th. At the Council meeting, the PAB will seek direction about continuing outreach and address other questions, with a final recommendation on April 17th.

Discussions about using the LPR device as a tool to collect data on repeat employee parkers, and what would a "moving to evade" ordinance look like were mentioned. Ultimately, the board's main focus continues to be about consistency and confusion issues in the parking lots.
